-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on August 29, 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The drawings are objected to because Figures 1, 2, 3a, and 3b photocopies of photographs, wherein significant detail is indistinct; in Figures 7a, 7b, 7c, and 8-13 there is poor shading and none of the elements therein are labeled with indicia indicative of their function. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lefki et al.

Claims 7-9, 38, 44-46, 49-53, 55, 58, and 59 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Altshuler et al.

Claims 10-19, 21-28, 32, and 36-38 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Azar et al.

Azar et al employ applicant’s disclosed parameters and thus inherently will produce the variously claimed results.

Claims 10-24, 29-32, 38-57, and 59-69 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McDaniel.

McDaniel employs applicant's disclosed parameters and thus inherently will produce the variously claimed results.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6, 10-24, and 33-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Altshuler et al in combination with Lefki et al. Altshuler et al teach a device and method as claimed except for the particular pulse widths and fluences. Lefki et al teach treating hair using pulse widths and fluences within the claimed range. It would have been obvious to the artisan or ordinary skill to employ the pulse widths and fluences of Lefki et al in the device and method of Altshuler et al, since Altshuler et al make it clear that a vast array of combinations of parameters can be used as long as they are related in the ways defined therein, or alternatively, to employ the parameter interrelations taught by Altshuler et al in the device and method of Lefki et al, since the parameter interrelations of Altshuler et al are useful for providing hair treatment, thus producing a device and method such as claimed.
